XTRA TOUGH ANTI CARBONATION COATING

Xtra Tough Anti-Carbonation coating is a water based, 100% acrylic, exterior coating, offering protection against carbon dioxide diffusion to your concrete structures. It has been formulated to protect and decorate concrete and masonry surfaces. The micro-porous structure of the coating acts as a barrier to Water and Carbon Dioxide but allows passing of water vapour from the substrate to the environment and becomes breathable along with the substrate. The elastomeric nature of Xtra Tough Anti-carbonation coating ensures good crack bridging properties in case of structural movement. **Finish** : Smooth and semi glossy. **Coverage** : 30-40 sq.ft/ltr/2 coat* . **Area of Application** : All kind of Exterior plaster, concrete and masonry surfaces.
